## The Halo Minerals Difference

### HEALTH AND WELLNESS BENEFITS

**MAGNESIUM:** Known for its therapeutic properties, magnesium soothes muscles, alleviates stress, and promotes relaxation. It is essential for maintaining healthy skin, reducing inflammation, and enhancing overall well-being.

**POTASSIUM:** This vital mineral helps to keep your skin hydrated and balanced. Potassium plays a crucial role in cellular function and energy production, making your swimming experience invigorating and refreshing.

**SODIUM:** While sodium is widely recognised for its sanitising capabilities, in Halo Minerals, it also helps to maintain the mineral balance.

### WATER HEALTH AND SAFETY

**CRYSTAL CLEAR WATER:** The powerful sanitising properties of sodium, combined with the benefits of magnesium and potassium, keep your pool water crystal clear and free from harmful contaminants. Enjoy sparkling clean water with minimal effort.

**GENTLE ON SKIN AND EYES:** Halo Minerals are designed to be gentle on your skin and eyes, reducing irritation commonly associated with traditional pool salts. Dive in and experience a comfortable, refreshing swim every time.

**ECO-FRIENDLY:** Our pool minerals are all sustainably harvested, ensuring that you can enjoy a luxurious swimming experience while being kind to the planet.

Transform your pool into a haven of health, wellness, and efficiency with Halo Minerals and Halo Chlorinators. Embrace the benefits of a superior mineral blend and advanced chlorination technology to enjoy the ultimate swimming experience.
