

A roller range product, likely a pool cover roller, is shown outdoors. It features a long, flat wooden top supported by a black metal frame. A large, white, multi-spoke wheel is visible on the right side, mounted on a black frame. The roller is positioned on a light-colored paved surface, and a large roll of blue and white striped material is visible behind it. The background consists of a dense green hedge and a light-colored wall. The text "ROLLER RANGE" is overlaid in white, bold, italicized capital letters on the lower left side of the image.

ROLLER RANGE

ROLLER RANGE - 5 STAR

100mm Roller Range for most backyard pools

All Rollers supplied with over cover and pool cover connection kit.

\$25 premium for non standard fixed length rollers to be manufactured.

leg on uneven ground.

EM

Roller end mount #235 **\$144.00**
wall mount kit to support one end
of the roller.

DAISY POWER

- ✓ Daisy power electric rollers
- ✓ Retro kits available
- ✓ Battery powered AC charge
- + solar models

ELECTRIC ROLLERS

The standard Daisy Power roller comes as a 12V battery operated electric roller with AC charger, two remotes and control buttons on the cast aluminium housing mounted on the end frame.

Daisy Power has a disengage mechanism, which allows for freewheeling rollout and rollup of the cover, and is a feature unique to Daisy.

Daisy Power can be retrofitted onto most existing 100mm Daisy Rollers.

Warranty period on electrical components (remote/control housing/tube motor/AC charger) is 2 years (this warranty does not cover battery failure).

All mechanical parts 10 year pro rata warranty.

Suitable for pools up to 15m.

BGB: BELOW GROUND POOL COVER BOX

A very popular product, the Below Ground Pool Cover Boxes are suitable for backyards that have limited space. These are a full aluminium constructed box with anodized aluminum lids. Heavy duty braces are fitted to reinforce the structural integrity of the box. Our boxes will save you money not only in protecting your pool cover, giving it longevity but also by enhancing your pool area, adding value to your home.

With Daisy Below Ground Boxes, the power is now in your hands with the latest time-saving accessory - BGB Drill Drive #1425. Find out more below.

- Quality boxes are fitted flush to the paving or concrete height - hidden to enhance the aesthetic look of your pool area
- Slimline lid opening
- Manual roller with sealed 3:1 gearbox and 1.4m handle included
- Single person operation
- Versatile: can be installed to suit most new and existing pools
- Installation only available in selected areas
- 5 year structural warranty for your peace of mind

BGB Drill Drive

Code: #1425 (drill not included)
\$485.00[^]

Daisy's super convenient invention allows you to wind up your BGB with a standard power drill. Simply use the extension arm and turn on your drill. Your Daisy Pool Cover will quickly and easily wind into the BGB.

This auto-roller option means no more manual winding. Even better, you can do it all without the hassle of connecting power to your BGB. That's the power of Daisy innovation.

DMR: DECK MOUNT ROLLER

These boxes will not only save you money by protecting your pool cover and giving it longevity, but they also enhance the look of your pool area, adding value to your home. Our units are full aluminium with anodised aluminium lids. Heavy duty braces are fitted to reinforce the structural integrity of the unit.

- Quality units are fitted flush to the decking or paving height – hidden to enhance the aesthetic look of your pool area
- Slimline lid opening
- Single person operation
- Versatile: can be installed to suit most new and existing pool, deck or bricked up cavities
- Installation only available in selected areas
- Note: pool cover must be installed to waterline maximum width, see FAQ
- 5 year structural warranty for your peace of mind
- Freight Metro: \$110* - Non-Metro: \$250*
